ABOUT ME

As a dedicated Angular Developer with 1.5 year of hands-on experience, I bring a passion for crafting dynamic and responsive user interfaces. Proficient in JavaScript and TypeScript, I specialize in leveraging the power of AngularJS to create seamless and interactive web applications.

My expertise extends to HTML, CSS, and I have a keen eye for design aesthetics. I have successfully implemented and maintained Telerik reports, showcasing my ability to integrate diverse technologies for comprehensive solutions. With a commitment to staying updated on the latest industry trends and best practices.

EXPERIENCE (1 YEAR)

2023–2024 (Present)

MESHILOGIC KINFRA PARK , KAKKANCHERY –MALAPPURAM

Angular Developer –1.5 year Experience

- Throughout my Experience as a full stack Developer, I have demonstrated proficiency in developing dynamic web applications by seamlessly integrating Angular with REST APIs, predominantly utilizing C# backend technologies to ensure robust and scalable solutions,
- focus mainly in Angular and Designing using Figma , And responsive Site

2023 (4 month)

MESHILOGIC KINFRA PARK , KAKKANCHERY

Internship In Angular

- Taken 3 month Internship in Same company That I'm Presently Working,
- focus mainly in Angular and Designing using Figma
- Worked on HTML5 , css bootstrap , jquery and javascript

PROJECTS

2023

ONLINE TOTAL CAMPUS SOLUTIONS

Web based ERP application for colleges

- ERP web application features efficient admission management, a comprehensive student information system, streamlined course and curriculum handling, effective financial administration, and a user-friendly library management system, collectively enhancing the educational experience for all stakeholders involved

2023-24

ONLINE TCS DEPARTMENT PORTAL

Student based ERP Web App

- As one of the lead developers on the Online TCS project, my responsibilities included designing the basic layout, such as the sidebar mechanism and base styles. I also helped create a reporting tool used for placement Details adding for College. This tool uses Telerik to print the output PDF a TeX-based computer typesetting system. Additionally, I created a request approval system for event management, which helped streamline the event management process and improve the app's overall functionality.

2023-24

APPLICATION FORM AND DOC UPLOADING

DATA Collection of Students / Payment Options

- Created a Project for Collecting the Students Huge data and documnetnts for College, both Web And Mobile can use very easily , A good Responsive Web application, Also I Implememnt a payment Gateway for Collect The amout of newly registered Student.
- And i Created a Setting Page to access the fields and option in the application, so we can change the web designs and web structure as per the idea or needs of Clients
- I implement a Theme option for Application forms, so we can easily change the color theme also as per the need of clients

2023-24

EXAMINATION HALL SEAT ARRANGEMENT SYSTEM

DATA Collection of Students / Payment Options

- Developed an Angular application for organizing examination hall seating arrangements, tailored for use by colleges during exam sessions. The project enables efficient student assignment by displaying detailed data on registered papers, seat capacity, and student arrangement patterns. With an intuitive, theater-style booking feature, exam administrators can allocate seats easily, ensuring orderly and organized seating arrangements for smooth exam conduction.

EDUCATION

2019-2022

CALICUT UNIVERSITY
Bachelor of Science in Physics

EXPERTISE

FRONT END / DESIGNING/REPORTING

- | | |
|-----------------------------|------------------------------|
| • HTML, HTML5 &CSS | • TYPESCRIPT & JAVASCRIPT |
| • JQUERY | • DOM |
| • BOOTSTRAP AND MEDIA QUERY | • FIGMA DESIGNING |
| • REPORTING (USING TELERIK) | • VIDEO CREATION AND EDITING |

ACHIEVEMENTS

2023-24

Successfully led the implementation of a responsive and user-friendly Online Application for a client, resulting increase in user engagement and positive feedback.
